RE: Freedom of Information Act Request

- I. Our school system is so small that we don't do any direct lobbying, use any lobbying organizations/firms, or advocates. We rely on others with budgets large enough with education at heart to represent us. Once in a while they will ask our opinion but that is about all. NO money ever changes hands for the purposes of lobbying.
- II. N/A Our School Board doesn't belong to the National Organization, they are only affiliated with their State Organization.
- III. N/A
- IV. The only correspondence concerning our legislature during the legislative sessions is between Superintendents and the LCB. This is done through Fiscal Notes. You would have to ask them for the results of these notes since once they are submitted I no longer have access to them. Once again, there is NO money involved in this process.
- V. N/A

I have left numerous messages on your phone to try and understand what information you are seeking. I felt that I needed to respond in some fashion before the deadline even though I have received no response back from you or your office. I hope the above information is sufficient for your purposes.

If you need further information please feel free to contact us.

Nykki L. Holton, Superintendent

Lincoln County School District
